### COURSE METHODOLOGY

This course is conducted with maximum use of practical application of the skills acquired. After facilitator led training has taken place via the course material, group work and scenario driven exchanges, participants will have opportunity to relate the information back to their work place and to practice their skills through the use of brainstorming, problem solving, case studies, role-plays and copy written training exercises. Within a relaxed and more fun environment participants will learn from each other, gaining knowledge and acquiring and reinforcing skills that will result in overall improved customer service performance.

### COURSE OBJECTIVES

In order to lead others, we must first be able to lead ourselves. We help you understand your role as a team leader in order to better understand yourself and those around you. Knowing what is required of you in order to effectively lead others will allow you to lead yourself into a place of leadership success. Self-led individuals make great team leaders.
