UNIT STD - 242811

COURSE METHODOLOGY

This course is conducted with maximum use of practical application of the skills acquired. After facilitator led training has taken place via the course material, group work and scenario driven exchanges, participants will have opportunity to relate the information back to their work place and to practice their skills through the use of brainstorming, problem solving, case studies, role-plays and copy written training exercises. Within a relaxed and more fun environment participants will learn from each other, gaining knowledge and acquiring and reinforcing skills that will result in overall improved customer service performance.

COURSE OBJECTIVES

Managing time is a personal thing and that is why this course starts by taking a closer look at you as an individual and your current use of time before developing a sustainable action plan to manage your future use of time. Whilst doing so, you will develop strategies to overcome the greatest time robbers at work and increase your productivity and overall effectiveness.
